

The Teaching Schools Alliance in Partnership with the Guru Nanak Teaching School Alliance has organised the following course for all **Group 1 Schools**.

Preparing for the New Primary Science Curriculum

Overview

On this course you will discuss the new primary science Curriculum and explore the key issues arising and implications of the changes. You will be given time and support to consider how to lead staff in reviewing teaching and learning in science in your school. You will explore how to audit and adapt current schemes of work to accommodate the new Curriculum.

Outcomes

You will be able to:

- describe key changes in the new curriculum and identify the implications for your school
- plan for curriculum change
- describe attributes of successful teaching and learning in science relating to the new Curriculum
- evaluate ways of embedding the new Curriculum

Refreshments, course handouts and lunch provided.

Date: 9th May 2014

Time: 09:30-16:00 hrs
