

The Teaching Schools Alliance in Partnership with the Guru Nanak Teaching School Alliance has organised the following course for all **Group 1 Schools**:

## **Assessment and Progression in Primary Science EYFS-KS2**

### **Overview**

This is an essential course for all primary science teachers. You will discuss how Assessment for Learning (AfL) and the accurate assessment of learning are central to effective classroom practice. You will explore a range of assessment techniques to help you track children's progress and discuss which strategies might be most suitable for your school. You will consider how assessment of children's understanding can inform your future teaching.

### **Outcomes**

You will be able to:

- use a range of AfL strategies effectively to promote children's learning
- acquire a deeper understanding of progression
- make confident and reliable teacher assessment of learning in science and identify children's next steps

.Refreshments, course handouts and lunch provided.

**Date:** 10<sup>th</sup> July      **Time:** 09:30-16:00 hrs

**Venue:** The Bishop Ramsey School. Hume Way Ruislip HA4 8EE.
